

To Future prospective sellers:

I have known Wendy Weir for the past five years. During this time I placed my home with her for a mini test on two separate occasions. My home is vastly overbuilt for the North Oakland County market and not easy to market. Never the less, Wendy enthusiastically undertook the task of trying to market my home, despite several severe marketing restrictions that I placed her under. She is a woman of action and creative ideas and was actually able to produce several prospects who were nearly in my price range at that time. I have such faith that I just re-listed my home for sale with her for a third time and this time I took off the handcuffs and expect great things.

I would strongly recommend her services for anyone who intends to market their home in the high end of the Oakland County real estate market.
