

We want to thank you for your help in selling our Michigan house. You helped to orient us to the market; let us know what comparable houses had sold for and what else was on the market. You helped us with the pricing strategy, having us first test the market at a higher price then dropping it to be very competitive within the market. Then, when the house was listed, you were very aggressive in showing the house and keeping us informed about everything that was happening. As a result, we sold the house in only 2 ½ months at a price with which we are very comfortable We have been able to move on with our lives and are now enjoying our wonderful views from our house in Telluride, Colorado.

-Jan and David Monroe
